**Subject: “Old Environmental Burden Removal in TRIANGLE Industrial Zone, Žatec “
final statement on completion of sanitation of saturated and unsaturated zone
and achievement of sanitation objectives.**

The Czech Environmental Inspection, Regional Inspectorate (CEI RI) Ústí nad Labem based on outcomes of the final inspection of the above-mentioned sanitation project held on 18.12.2009 and based on below stated documents:

1. Resolution of the CEI RI Ústí n/L., ref. no. 4/OV/6541/01/Ra of 1.10.2001
2. Final report on groundwater sanitation “Old Environmental Burden Removal in TRIANGLE Industrial Zone, Žatec “ prepared by the contractor in September 2009
3. Progress reports “Old Environmental Burden Removal in TRIANGLE Industrial Zone, Žatec “ prepared and submitted by the contractor in the course of the sanitation project
4. Written statement by the supervisor (AQUATEST, a.s.) of 11.12.2009 on meeting sanitation target limits in saturated zone
5. Minutes of inspections no. 1 to 11 dealing with old environmental burdens´ removal in the area of former Žatec military airport (TRIANGLE IZ)

states that submitted documents about the course of sanitation, which was divided into two phases:

Phase I – sanitation of unsaturated zone (in 2003 – 2004)

Phase II – sanitation of saturated zone (in 2004 – 2009)

were assessed in terms of conditions set by the above-mentioned decision. Sanitation work was performed in compliance with the implementation project and target parameters of the sanitation intervention for soils, building structures and groundwater were achieved

Based on the above-listed documents the CEI RI Ústí nad Labem as an authorized administrative body issues this **final statement on achievement of sanitation objectives**:

The issued resolution on imposing measures to remedy is considered fulfilled, and sanitation of old environmental burden in the area of former Žatec military airport (TRIANGLE IZ) completed.
